

Curious how devices communicate?

Enroll in

CMPE 189-03 Wireless Networks and Telecommunication Systems

Through this course, you will:

- Understand wireless transmission and propagation
- Understand technologies like 802.11 (WiFi), BlueTooth, ZigBee, etc
- Learning routing and transport mechanisms in wireless networks
- Discuss the evolution and design of telecommunication systems
- Simulate wireless networks on network simulator NS-3

Tuesdays/Thursdays 3:00 pm – 4:15 pm
